

TABLE DE COTATION FÉDÉRALE

Saison 2016/2017 & après

Une conception étalonnée sur la concurrence mondiale

Sport de chiffres par excellence, la natation course a toujours connu des outils pour apprécier la valeur chronométrique des performances les unes par rapport aux autres. Dès la première année de la création de la FFN alors Fédération française de natation et de sauvetage, le 20 novembre 1920, l'un de ses dirigeants, Eugène Connord, président de la commission de sauvetage, a établi un barème pour apprécier la vitesse de la recherche du mannequin et le maintien de celui-ci aux championnats de France de sauvetage. Depuis lors, plusieurs barèmes, cotations diverses et variées ont jalonné l'histoire de la FFN, toutes plus ou moins pertinentes. Dans un passé récent, elles serviront, entre autres, à mesurer la valeur de chaque équipe qui prend part aux championnats de France interclubs ou bien à calculer le classement national des clubs s'agissant de la meilleure performance individuelle de chaque nageur classé.

La dernière table de cotation en date - celle de l'olympiade 2005-2008 - qui, en fin de compte, est restée opérationnelle durant douze ans, soit jusqu'au terme de la saison 2015-2016, a été conçue en prenant comme référence les performances nationales (moyenne des 10 ATRF : All Time Ranking Français, c'est-à-dire les 10 meilleurs performers français de tous les temps). Ainsi, la cotation 1.350 points correspondait pour toutes les épreuves individuelles à la moyenne des ATRF. En ce qui concerne les relais, n'ayant pas d'historique des ATRF, la cotation 1.350 points correspond aux records de France de l'époque. Le plafond de cette table était fixé à 1500 points, une limite qui a souvent été atteinte par les meilleurs nageurs mondiaux en bassin de 25m.

Cette table de conception franco-française a fait place désormais à une table reposant sur les ATRM All Time Ranking Mondiaux, en bassin de 50 m et de 25 m publiées chaque année par la FINA (10 meilleurs performers mondiaux de tous les temps), une table mondiale en quelque sorte, de 1 point à 1.500 points. La cotation de 1.430 points représente la moyenne mondiale pondérée du top 10. La cotation à 2 points - sachant que la porte d'entrée de la table, la cotation 1 point, n'exige aucun temps limite sous réserve de finir l'épreuve en respectant les règlements FINA - a également été actualisée pour une meilleure harmonie d'une épreuve à l'autre. Toutes les épreuves individuelles et les relais 4x50 NL, 4x100 NL, 4x200 NL, 4x50 4 Nages et 4x100 4 nages du programme FINA ont été calculés de cette façon.

Pour les autres types d'épreuves individuelles ou de relais, les points ont été extrapolés à partir des valeurs obtenues des épreuves individuelles et de relais du programme FINA. À partir de la présente saison sportive 2016-2017, le premier maillon de l'olympiade Tokyo, la nouvelle table sera en production pour apprécier la valeur relative de chacune des performances nagées par nos licenciés.
